Request for Public Consultation

Technical Specification for Presenting the Entity’s Name to the Called Party

July 2023
1. Introduction:

The communications, Space and Technology commission (CST) is responsible, in accordance within the telecommunication and information technology act, telecom and information technology act bylaw and CST Ordinance; for developing and implementing technical specifications to ensure the safety of the public and allow their access to the most reliable and advanced communications and information technology services. Towards that objective, CST periodically seek public consultation in introducing and implementing new technologies and services in the Kingdom.

The CST is launching the public consultation for enabling the presentation of the entity's name to the called party in Service Providers' networks and invites interested parties to participate in it. The technical details and the feature explanation are described in document “Technical Specification for Presenting the Entity’s Name to the Called Party - Public Consultation Questionnaire” as well as a draft of the proposed technical specification for the feature in the attachment.

2. Scope and Objective of Document:

- The aim of the public consultation is to collect feedback about the feature of presenting the entity's name to the called party.
- This document is intended for the telecommunication service providers, handset manufacturers, Government and Private sectors, and all interested parties in knowing the feature and its scope of application.
- This document includes the technical specifications for presenting the entity’s name to the called party.

3. Participation:

Participants wishing to submit their views on the document must submit them to the Communication, Space & Technology Commission no later than August 17, 2023. Opinions and comments can be sent using one or all of the following methods:
